Investment Advisers' Statement

The Mansion Student Accommodation Fund ("MSAF") exchanged contracts in January 2012 to acquire four buildings in Central Manchester. These buildings will add 437 rooms to the portfolio when the purchase completes in April 2012. The buildings will be refurbished this summer and Mansion Property Management ("MPM") has been granted rights to market the properties for the September 2012 intake. These buildings will complement the existing Manchester portfolio and significantly enhance the portfolio in the second largest student town (by student population).

Jones Lang LaSalle ("JLL"), the Independent Valuer to MSAF, have reviewed their valuations across all of the sites and continue to reflect within their monthly valuations the ongoing performance and growth of the portfolio. Based on these revised valuations and the ongoing surplus rental income derived from the properties within the Fund, the overall NAV of the fund has increased by 0.57%.

Property Advisers' Statement

MSAF has agreed terms in principle to acquire a newly built property in Liverpool which was completed in September 2011. It is hoped this property could be acquired in February 2012. Proposals have also been presented on a scheme in Loughborough which, if acquired, would add a new location to the portfolio. Two further opportunities in London are also under consideration by Mansion Capital Partners Limited.

Contracts for the redevelopment of Mansion Studios in Nottingham have been signed and works will start on the 20 February 2012 with a target completion date at the end of August 2012. The tendering process on the remaining properties remains on programme.

Lettings for the 2012/13 academic year stand at just under 20% at the end of January 2012 which is in line with MPM's expectations.

Mary Curnock Cook, the Chief Executive of UCAS (University and Colleges Admissions Service) confirmed in a statement published on 31 January 2012 that there has been "... a fall of just one percentage point in the Application Rate in England, with little change across the rest of the UK." She also commented "The indications are that demand for Higher Education will continue to outstrip the number of places available in 2012. Applications are already 50,000 ahead of the number of acceptances in 2011 and last year UCAS received over 100,000 further applications between January and the close of the cycle." On this basis MPM do not anticipate that the introduction of higher tuition fees in England will have any significant impact on the MSAF portfolio as demand for University places is expected to continue to outstrip supply.
